LUMENOOK

LIGHT FOR YOUR QUIET CORNER

Premium Shopify Store: Full Build Brief

Implementation plan for Claude Code (Antigravity) + Shopify connector

Market: United Arab Emirates · Theme: Dwell (Horizon family) · Domain: lumenook.com

Prepared 24 September 2026 · Version 1.0

01 How to use this brief

This PDF is the single source of truth for building the Lumenook store. It is written so you can hand it to Claude Code in Antigravity as-is. Claude Code builds the **theme** (code). Claude in Cowork, through the Shopify connector, builds the **store data** (products, collections, metafields, pages, menus). You handle admin-only settings (payments, domain, plan, legal).

Step 1: give Claude Code the context

1. Put this PDF in the theme repo, e.g. `docs/LUMENOOK_BRIEF.pdf`.
2. Create `CLAUDE.md` at the repo root with the text in the box below.
3. Work phase by phase (Section 17). Paste one phase prompt at a time, review in the preview, commit, then move on.

```
# CLAUDE.md  (Lumenook theme repo)
Project: Lumenook - premium lighting & desk-objects store for the UAE, built on the
Shopify Dwell theme (Horizon family, theme blocks architecture).
Full spec: docs/LUMENOOK_BRIEF.pdf - read the relevant section before every task.

Rules:
- Work only on the unpublished theme "Lumenook - Dev". Never publish.
- Run `shopify theme dev` for preview; run `shopify theme check` before every commit.
- Prefer theme settings, JSON templates and new blocks over editing core Dwell files.
- New files: prefix with `lumenook-` (blocks/lumenook-spec-table.liquid, etc.).
- All colors/fonts come from CSS variables in assets/lumenook.css (Section 5).
- Every string visible to shoppers goes through locales/en.default.json + ar.json.
- Must work in RTL (Arabic). Use logical CSS (margin-inline-start, not margin-left).
- No external JS libraries; vanilla JS web components only. No jQuery.
- Keep Lighthouse mobile performance >= 80 and accessibility >= 95.
- Small commits with clear messages, one feature per commit.
```

Important: Dwell is updated by Shopify. Keeping custom work in separate `lumenook-*` files and in JSON templates makes future theme updates far easier to merge.

02 Project context and decisions

Item	Decision
Store name	Lumenook (currently shows "My Store 9"; rename in Settings > Store details)
Store handle	wgx84v-st.myshopify.com (admin: admin.shopify.com/store/wgx84v-st)
Domain	lumenook.com (registered with an AE registrar, to be connected)
Market	United Arab Emirates first; GCC later
Currency / tax	AED, prices shown VAT-inclusive (5%)
Languages	English (default) + Arabic (RTL)
Theme	Dwell, free Shopify theme from the Horizon collection: nested theme blocks, mega menu, quick add, RTL improvements
Positioning	Premium / quiet luxury. "Light for your quiet corner." Curated, calm, warm, not flashy
Product source	Product range inspired by two reference collections (lamps & lighting, desk accessories). Photos and copy must be your own or from your supplier
Tooling	Claude Code in Antigravity (theme code) + Claude Cowork with Shopify connector (store data)
Plan	Trial ends in about 3 days from 24 Sep 2026: choose a paid plan first

Who does what

Job	Owner	Tool
Theme code: sections, blocks, CSS, JS, templates, locales	Claude Code	Antigravity + Shopify CLI + Git
Products, collections, metafield definitions and values, pages, menus, SEO fields, discounts	Claude (Cowork)	Shopify connector
Colors, fonts, section order, images in theme editor	You (or Claude Code via settings_data.json)	Theme editor
Payments, plan, domain DNS, apps, legal pages review, trade licence	You	Shopify admin / registrar

03 Rules and guardrails

- **Never edit the live theme.** Work in a duplicate named Lumenook - Dev. Keep the untouched Dwell as a backup.
- **Don't copy other stores.** No photos, descriptions or layouts lifted from the reference shop. Use supplier images or your own shoot, and original copy.
- **Branded products:** sell IKEA, Anker, Divoom etc. only if sourced through legitimate channels, keep their real brand name as vendor, and never present them as Lumenook-made. Avoid other companies' trademarks in product names (e.g. "Macintosh", "Marriott Bonvoy").
- **Reviews:** only real customer reviews from a reviews app. No invented testimonials or fake "sold" counters.
- **Urgency:** no fake countdown timers or fake stock scarcity. Show real inventory only.
- **Accessibility:** text contrast at least 4.5:1, visible focus states, alt text on every image, keyboard-usable menus and galleries.
- **Git:** one feature per commit; run `shopify theme check` with zero errors before committing.

04 Environment setup

In Shopify admin (you)

1. Online Store > Themes > Dwell > ... > Duplicate. Rename the copy to **Lumenook - Dev**.
2. Settings > Store details: name **Lumenook**, currency AED, timezone (GMT+04:00) Abu Dhabi / Dubai.
3. Settings > Plan: pick a plan before the trial expires.

In Antigravity terminal (Claude Code can run these)

```
# 1. Tools (Node 20+ required)
node -v
npm install -g @shopify/cli@latest
shopify version

# 2. Pull the dev theme
mkdir lumenook-theme && cd lumenook-theme
shopify theme pull --store wgx84v-st.myshopify.com
#   -> choose "Lumenook - Dev" from the list

# 3. Version control
git init
printf "node_modules/\n.DS_Store\n.shopify/\n" > .gitignore
git add . && git commit -m "chore: pull Dwell as Lumenook - Dev baseline"
git branch -M main
git remote add origin https://github.com/<you>/lumenook-theme.git
git push -u origin main

# 4. Live preview with hot reload (keep running while you work)
shopify theme dev --store wgx84v-st.myshopify.com --theme "Lumenook - Dev"
```

```
# 5. Quality gate before every commit
shopify theme check

# 6. Push changes to the dev theme when not using GitHub sync
shopify theme push --theme "Lumenook - Dev"
```

Optional GitHub sync: Online Store > Themes > Add theme > Connect from GitHub, choose the repo and a dev branch. Then pushes to that branch update a theme automatically. Don't use `theme push` and GitHub sync on the same theme at the same time.

Expected Dwell / Horizon folder layout (verify after pull)

```
assets/       CSS, JS, icons        -> add lumenook.css, lumenook.js
blocks/       theme blocks (Horizon) -> add lumenook-*.liquid blocks here
config/       settings_schema.json, settings_data.json (colors, fonts, schemes)
layout/       theme.liquid          -> include lumenook.css / lumenook.js once
locales/      en.default.json, ar.json ...
sections/     header, footer, product-information, collection, etc.
snippets/     shared partials
templates/    *.json templates (index, product, collection, page ...)
```

Before changing anything, Claude Code should list the actual files in `sections/` and `blocks/`, and write a short map of which section renders the header, product info, product media, collection grid and footer. File names in this brief are targets, not guarantees.

05 Brand system and design tokens

Colour palette

Ivory #F6F1EA | Sand #E6DCCF | Brass #B08D57 | Espresso #2B2320 | Night #1C1917 | Muted #6B5F58

Token	Hex	Use
--ln-ivory	#F6F1EA	Main page background
--ln-sand	#E6DCCF	Cards, product image background, accordions
--ln-stone	#D9CFC2	Hairline borders, dividers
--ln-brass	#B08D57	Accent: links hover, underline, icons, small labels. Never for body text on ivory (low contrast)
--ln-brass-dark	#8A6A3B	Brass text on light backgrounds (passes contrast for large text)
--ln-espresso	#2B2320	Headings, body text, primary buttons
--ln-night	#1C1917	"After Dark" sections, footer
--ln-muted	#6B5F58	Secondary text, captions
--ln-ivory-on-dark	#EFE6DA	Text on night backgrounds

Dwell colour schemes to configure (Theme settings > Colors)

Scheme	Background	Text	Button bg / text	Used for
Scheme 1: Ivory	#F6F1EA	#2B2320	#2B2320 / #F6F1EA	Default pages
Scheme 2: Sand	#E6DCCF	#2B2320	#2B2320 / #F6F1EA	Alternating sections, cards
Scheme 3: Night	#1C1917	#EFE6DA	#B08D57 / #1C1917	After Dark, footer, hero overlay

Scheme	Background	Text	Button bg / text	Used for
Scheme 4: Brass	#B08D57	#1C1917	#1C1917 / #F6F1EA	Announcement bar, small promos

Typography

Role	Font (Latin)	Font (Arabic)	Size desktop / mobile	Style
Display / H1	Cormorant Garamond 500	Noto Naskh Arabic 500	56 / 36 px	Line-height 1.1, letter-spacing -0.01em
H2	Cormorant Garamond 500	Noto Naskh Arabic 500	38 / 28 px	Line-height 1.15
H3 / product title	Cormorant Garamond 600	Noto Naskh Arabic 600	30 / 24 px	
Eyebrow / labels	Jost 500 UPPERCASE	IBM Plex Sans Arabic 500	12 px	Letter-spacing 0.18em (0 for Arabic)
Body	Jost 400	IBM Plex Sans Arabic 400	16 / 15 px	Line-height 1.65
Buttons	Jost 500 UPPERCASE	IBM Plex Sans Arabic 500	13 px	Letter-spacing 0.14em, height 52 px

Pick the Latin fonts from Shopify's font library in theme settings where available (Cormorant Garamond and Jost are both in the library). Arabic fonts load only when `request.locale.iso_code == 'ar'`.

CSS tokens file: assets/lumenook.css

```
:root {
  --ln-ivory:#F6F1EA; --ln-sand:#E6DCCF; --ln-stone:#D9CFC2;
  --ln-brass:#B08D57; --ln-brass-dark:#8A6A3B;
  --ln-espresso:#2B2320; --ln-night:#1C1917; --ln-muted:#6B5F58;
  --ln-ivory-on-dark:#EFE6DA;
  --ln-radius:2px;             /* near-square = premium */
  --ln-gap:clamp(16px,2.5vw,32px);
  --ln-section-y:clamp(64px,9vw,128px);
  --ln-ease:cubic-bezier(.2,.7,.2,1);
  --ln-dur:450ms;
}
.ln-eyebrow{font-size:12px;letter-spacing:.18em;text-transform:uppercase;color:var(--ln-muted)}
[dir="rtl"] .ln-eyebrow{letter-spacing:0;text-transform:none}
.ln-link{background:linear-gradient(var(--ln-brass),var(--ln-brass)) 0 100%/0 1px no-repeat;
  transition:background-size var(--ln-dur) var(--ln-ease)}
.ln-link:hover{background-size:100% 1px}
.button,.shopify-payment-button__button{border-radius:var(--ln-radius);letter-spacing:.14em;min-
    height:52px}
.ln-fade{opacity:0;transform:translateY(16px);transition:opacity .8s var(--ln-ease),transform .
    8s var(--ln-ease)}
.ln-fade.is-visible{opacity:1;transform:none}
@media (prefers-reduced-motion:reduce){.ln-fade{opacity:1;transform:none;transition:none}}
```

Visual rules

- Generous whitespace: section padding 96-128 px desktop, 64 px mobile. Max content width 1320 px.
- Square-ish corners (2 px). No drop shadows except a very soft one on the cart drawer.
- Thin 1 px hairlines in --ln-stone instead of boxes.
- Icons: thin line (1.25 px stroke), espresso or brass. No emoji, no coloured icon sets.
- Motion: slow fades (450-800 ms), subtle image zoom on hover (scale 1.03). Respect prefers-reduced-motion.
- Imagery: warm evening light, travertine, marble, linen, walnut, oud-wood tones. Product images 4:5, background #E6DCCF or real room scene.

- Badges: only "New", "Limited" and "Sold out", small uppercase, espresso text on sand. No red sale badges.

Logo

Wordmark **LUMENOOK** in Cormorant Garamond, wide letter-spacing (0.28em), with a small mark: a circle with a warm inner glow (like the cover of this brief). Deliver as SVG in two versions: espresso on ivory and ivory on night. Favicon: the glow mark only, 512x512 PNG. Header logo width: 150 px desktop, 118 px mobile.

06 Store structure: collections, menus, pages

Claude (Cowork) creates these through the connector. Smart collections sort products automatically using product type and tags.

Collections

Collection	Handle	Smart rule	SEO title (max 60 chars)
Lighting (parent)	lighting	Tag = dept-lighting	Luxury Lamps & Lighting in UAE | Lumenook
Table Lamps	table-lamps	Type = Table Lamp	Designer Table Lamps Dubai & UAE | Lumenook
Floor Lamps	floor-lamps	Type = Floor Lamp	Modern Floor Lamps UAE | Lumenook
Desk & Task Lamps	desk-lamps	Type = Desk Lamp	Desk & Task Lamps for Home Office | Lumenook
Mood & Ambient	ambient-lighting	Tag = ambient	Ambient & Mood Lighting UAE | Lumenook
Desk Objects (parent)	desk-objects	Tag = dept-desk	Premium Desk Accessories UAE | Lumenook
Smart Clocks	smart-clocks	Type = Desk Clock	Smart Desk Clocks & Weather Stations | Lumenook
Sound & Display	sound-display	Type = Speaker	Design Speakers for Your Desk | Lumenook
Charging & Power	charging	Type = Charger	Premium Desk Chargers UAE | Lumenook
Little Luxuries	little-luxuries	Tag = little-luxuries	Small Gifts & Desk Essentials | Lumenook
New Arrivals	new-arrivals	Tag = new	New In | Lumenook
Bestsellers	bestsellers	Manual	Bestsellers | Lumenook
Gifts under AED 300	gifts-under-300	Price < 300 AND tag = giftable	Luxury Gifts Under AED 300 | Lumenook
The Home Office Edit	home-office-edit	Tag = home-office	The Home Office Edit | Lumenook
Shop by room: Living / Bedroom / Office / Majlis	room-living, room-bedroom, room-office, room-majlis	Tag = room-*	Lighting for the | Lumenook

Collection intro copy (above grid, max 2 lines) - examples

- **Table Lamps:** "Sculptural lamps that turn a side table into a quiet moment. Warm light, honest materials, made for evenings at home."

- **Floor Lamps:** "Tall, soft light for reading corners and majlis evenings. Designed to fill a room without flooding it."
- **Mood & Ambient:** "Glow, not glare. Touch lamps, candle warmers and ambient pieces for slow nights."
- **Desk Objects:** "The things that live on your desk, chosen with care. Clocks, sound and charging that look as good as they work."

Each collection also gets a 150-250 word SEO block at the bottom (what it is, how to choose, UAE delivery note).

Main menu (handle: main-menu)

```
Lighting ▸            (mega menu, 3 columns + 1 image card)
   By type:  Table Lamps · Floor Lamps · Desk & Task Lamps · Mood & Ambient
   By room:  Living · Bedroom · Home Office · Majlis
   Card:     "After Dark" image -> /collections/ambient-lighting
Desk Objects ▸
   Smart Clocks · Sound & Display · Charging & Power · Little Luxuries
   Card:     "The Home Office Edit" -> /collections/home-office-edit
Gift Edit           -> /collections/gifts-under-300
Journal             -> /blogs/journal
About               -> /pages/about
```

Footer menus

Column	Links
Shop	Lighting, Desk Objects, New Arrivals, Gift Edit
Help	Shipping & Delivery, Returns & Exchanges, Warranty, FAQ, Track Order, Contact
Lumenook	About, Journal, Care Guide, Privacy Policy, Terms of Service
Contact block	WhatsApp number, email hello@lumenook.com, hours (Sun-Thu 10:00-19:00 GST or your hours), Instagram / TikTok icons

Pages

Page	Handle	Content outline
About	about	Story (why Lumenook), the curation promise, UAE-based service, photo of workspace/packaging
Contact	contact	Form, WhatsApp button, email, response time
Shipping & Delivery	shipping	Rates per emirate, cut-off time, COD, tracking, GCC note
Returns & Exchanges	returns	Window (e.g. 7 or 14 days), condition, how to start, refund timing
Warranty	warranty	Coverage per product type, how to claim
FAQ	faq	Accordion: delivery, COD, payments, plug types, bulbs, gifting, returns
Care Guide	care-guide	Cleaning brass, fabric shades, wood; bulb replacement; safety
Journal (blog)	journal	Articles: "How to light a majlis", "Best desk setup for home office", "Warm vs cool light"

07 Metafield definitions

Claude (Cowork) creates these definitions via the Admin API, then fills them per product. Claude Code reads them in blocks. Namespace: `lumenook`. All are product metafields, pinned in admin, and exposed to the storefront.

Key	Type	Example	Shown on
subtitle	single_line_text_field	Walnut base · Warm 2700K glow	Under product title
material	single_line_text_field	Frosted glass, solid walnut	Spec table
dimensions	single_line_text_field	H 32 cm x W 24 cm	Spec table
weight	single_line_text_field	1.2 kg	Spec table
light_source	single_line_text_field	Integrated LED, 8W	Spec table
color_temperature	single_line_text_field	2700K warm white	Spec table
dimmable	boolean	true	Spec table + filter
power	single_line_text_field	USB-C 5V / UK plug (Type G) adapter included	Spec table + filter
control	single_line_text_field	Touch, 3 brightness levels	Spec table
warranty	single_line_text_field	2-year Lumenook warranty	Spec table + trust row
in_the_box	multi_line_text_field	Lamp, USB-C cable, UK adapter, care card	Accordion
care	multi_line_text_field	Wipe with a dry cloth...	Accordion
features	list.metaobject_reference (lumenook_feature)	3 feature cards	"The Details" rows
image_lit	file_reference (image)	lamp switched on	Lit/unlit toggle
image_unlit	file_reference (image)	lamp switched off	Lit/unlit toggle
pairs_with	list.product_reference	2-4 products	"Pairs well with"
room	list.single_line_text_field	Living, Bedroom	Filter
gift_ready	boolean	true	Badge "Gift ready"

Metaobject: lumenook_feature

Field	Type
title	single_line_text_field
text	multi_line_text_field
image	file_reference (image)

Search & Discovery app filters: Availability, Price, Product type, Colour (variant option), lumenook.dimmable, lumenook.power, lumenook.room.

08 Homepage specification (templates/index.json)

#	Section	Scheme	Content and settings
1	Announcement bar	Brass	Rotating (6s): "Complimentary delivery across the UAE over AED 300" · "Cash on delivery available" · "Gift wrapping on request". Font 12 px uppercase
2	Header	Transparent over hero, then Ivory on scroll	Logo centred on desktop, menu left, search/account/bag right. Sticky, shrinks from 88 px to 64 px. Mega menu per Section 6
3	Hero	Night	Full-bleed video (8-12s loop, muted, poster image) or image of a lamp-lit room. Height 92vh desktop, 78vh mobile. Eyebrow "THE AUTUMN EDIT", H1 "Light for your quiet corner", one button "Explore lighting". Text bottom-left (bottom-right in RTL)
4	Shop by Room	Ivory	4 tall image tiles (3:4): Living, Bedroom, Home Office, Majlis. Serif label + thin arrow; image zoom on hover
5	Featured: Lighting	Ivory	Heading "The Lighting Collection" + link "View all". Carousel of 4-8 products, card with 2nd image on hover, no vendor, price only
6	After Dark	Night	Split: large image of lamps glowing, text "Glow, not glare" + 2 lines + button to Mood & Ambient
7	Desk Objects	Sand	Image left (styled desk), 3 product cards right. Heading "On the desk"
8	Brand promise	Ivory	4 columns with thin icons: 2-year warranty · Delivery in 1-3 days across UAE · Easy 14-day returns · Gift wrapping
9	Editorial quote	Sand	One large serif line about the brand, small caption. No fake reviews
10	Reviews	Ivory	Reviews app carousel (only after real reviews exist; hide section until then)
11	Journal	Ivory	3 latest blog posts
12	Newsletter	Night	"Join the Lumenook circle" - early access to new pieces. Email field + button
13	Footer	Night	4 columns (Section 6), payment icons (Visa, Mastercard, Apple Pay, Tabby/Tamara if enabled, COD), country/language selector

09 Collection page specification

- **Banner:** image (21:9 desktop, 4:5 mobile) from collection image, overlay Night at 35%, eyebrow = parent department, H1 = collection title, 2-line intro (collection description first paragraph).
- **Toolbar:** product count ("18 pieces"), filter drawer button, sort dropdown. Sticky on scroll.
- **Filters:** drawer from the side (start side in RTL). Filters listed in Section 7.
- **Grid:** 3 columns desktop, 2 mobile, gap 32/16 px. Image ratio 4:5, second image on hover, quick add button appears on hover (desktop) or small bag icon (mobile).
- **Card content:** title (serif 20 px), subtitle metafield (muted 13 px), price. Colour swatches (max 4). Badges: New / Limited / Sold out only.
- **Editorial tile:** after the 6th product insert one full-width or 2-column image tile with a line of copy (a block, optional per collection).
- **Pagination:** "Load more" button, 12 products per load.
- **Bottom:** SEO text block (collection description remainder, collapsed after 4 lines with "Read more").
- **Empty state:** "New pieces arriving soon" + link to New Arrivals.

10 Premium product page specification

This is the most important template. Create `templates/product.json` as the default and `templates/product.lamp.json` for lighting (adds lit/unlit toggle and After Dark image section).

Layout, top to bottom

Zone	Specification
Breadcrumb	Home / Lighting / Table Lamps. Small, muted. BreadcrumbList JSON-LD
Gallery (left, 58% width)	Desktop: 2-column stacked grid, first image full width. Mobile: swipe carousel with thin progress bar, no dots. Zoom on click (lightbox). Video supported (autoplay muted in view). Order: hero studio, lit, in-room, scale shot, 2-3 details, video
Buy box (right, 42%, sticky)	Eyebrow = product type. Title H1 serif 30 px. Subtitle metafield. Rating stars (reviews app, hidden if 0). Price AED, e.g. "AED 249" (no .00). "VAT included" in muted 12 px. Tabby/Tamara instalment line if enabled
Variants	Colour as round swatches with name on hover; finish/size as outlined pills. Selected state = espresso 1 px border
Quantity + CTA	Qty stepper, "Add to bag" (espresso, full width, 52 px). Dynamic checkout button below (Apple Pay / Buy now) in outline style
Delivery estimator	Custom block lumenook-delivery-estimate (spec below): "Order in the next 3h 12m - arrives Dubai tomorrow, Thu 25 Sep"
Trust row	4 small icons: 2-year warranty · Cash on delivery · Secure checkout · 14-day returns
Gift note	Checkbox "This is a gift" + gift message field (line item properties). Optional paid gift wrap as a separate product
Accordions	Description · Specifications (lumenook-spec-table) · What's in the box · Care · Shipping & Returns (shared page content). First open by default
The Details	3 alternating image + text rows from lumenook.features metaobjects
Lit / unlit (lamps)	lumenook-lit-toggle: one large image with toggle "Off / On" that crossfades between image_unlit and image_lit
Pairs well with	lumenook.pairs_with, 2-4 cards, with quick add. Fallback: Shopify product recommendations (complementary)
Reviews	Reviews app widget
You may also like	Product recommendations (related), 4 items
Recently viewed	Last 4 products from localStorage (wrapped in try/catch)
Mobile sticky bar	Appears after main CTA scrolls out: thumbnail, title, price, "Add to bag". Hides near footer
WhatsApp	Floating button bottom (end side), prefilled "Hi Lumenook, I have a question about {{ product.title }}"

Custom blocks for Claude Code to build

A. blocks/lumenook-spec-table.liquid

Renders a 2-column table from product metafields; skips empty rows; label strings from locales.

```
{%- liquid
  assign m = closest.product.metafields.lumenook
  assign rows = 'material,dimensions,weight,light_source,color_temperature,power,control,
    warranty' | split: ','
-%}
<dl class="ln-spec">
  {%- for key in rows -%}
    {%- assign val = m[key].value -%}
    {%- if val != blank -%}
      <div class="ln-spec__row">
```

```
        <dt>{{ 'lumenook.specs.' | append: key | t }}</dt>
        <dd>{{ val }}</dd>
      </div>
    {%- endif -%}
  {%- endfor -%}
  {%- if m.dimmable != blank -%}
    <div class="ln-spec__row"><dt>{{ 'lumenook.specs.dimmable' | t }}</dt>
    <dd>{% if m.dimmable.value %}{{ 'general.yes' | t }}{% else %}{{ 'general.no' | t }}{%
    endif %}</dd></div>
  {%- endif -%}
</dl>
{% schema %}
{ "name": "Lumenook spec table", "tag": null, "settings": [
  { "type": "text", "id": "heading", "label": "Heading", "default": "Specifications" } ] }
{% endschema %}
```

Note: Horizon blocks use `closest.product` to reach the product in context. Claude Code must confirm this against existing Dwell blocks and make sure the product-information section accepts `@theme` blocks so this block can be added in the editor.

B. blocks/lumenook-delivery-estimate.liquid + assets/lumenook.js

- Settings: cut-off hour (default 14:00 Asia/Dubai), fast emirates list (Dubai, Sharjah, Ajman = next day), others (Abu Dhabi, RAK, UAQ, Fujairah = +2 days), non-delivery weekdays (default none), holidays list (textarea of dates).
- JS web component `<ln-delivery-estimate>`: compute time in Asia/Dubai via `Intl.DateTimeFormat`, show countdown to cut-off, show date formatted in the store locale (Arabic when ar).
- Emirate selector (small dropdown) remembers choice in localStorage (try/catch). Default Dubai.
- Hide when product is sold out.

C. blocks/lumenook-lit-toggle.liquid

- Uses metafields image_lit and image_unlit. If either is missing, render nothing.
- Two stacked `image_tag` images with widths 600-2000 and sizes attribute; toggle is a real `<button aria-pressed>`.
- Crossfade 600 ms; default state = lit. Reduced motion = instant switch.

D. blocks/lumenook-trust-row.liquid

Up to 4 child items, each: icon (select from 6 inline SVG line icons: shield, truck, cash, lock, return, gift) + short text. Horizontal on desktop, 2x2 grid on mobile.

E. sections/lumenook-details.liquid

Loops over `product.metafields.lumenook.features.value`; alternating image left/right (mirrored in RTL); image 4:5, heading serif 28 px, text 16 px.

F. snippets/lumenook-sticky-atc.liquid

Mobile only (<750 px). IntersectionObserver on the main buy button. Submits the same product form (form attribute) so the selected variant stays in sync.

Product structured data (SEO)

Make sure Product JSON-LD includes name, image, description, sku, brand (vendor), offers (price, priceCurrency AED, availability, url) and aggregateRating when the reviews app provides it. Dwell may already output this through `structured_data`; extend rather than duplicate.

11 Header, cart and footer

- **Header:** transparent on homepage hero with ivory logo/icons; switches to ivory background + espresso on scroll (class toggle at 40 px). Height 88 to 64 px. Bag count as small brass dot with number.
- **Mega menu:** full width, ivory, 3 link columns + 1 image card (3:4) with caption. Opens on hover (150 ms intent delay) and on click/Enter; closes with Esc.
- **Search:** predictive search overlay, shows 4 products + collections + pages; placeholder "Search lamps, clocks, gifts...".
- **Cart drawer:** slides from end side. Free-delivery progress bar ("You're AED 51 away from complimentary delivery") using a theme setting threshold (default 300). Gift note textarea. Upsell: 1-2 products from Little Luxuries. Checkout button espresso; payment icons under it.
- **Footer:** Night scheme, logo, one-line brand statement, 4 columns, newsletter, social icons, payment icons, "© 2026 Lumenook. Prices in AED incl. VAT."

12 Arabic and RTL

- Install Shopify **Translate & Adapt**; add Arabic in Settings > Languages and publish it for the UAE market.
- All new strings in `locales/en.default.json` and `locales/ar.json` under a `lumenook` key.
- CSS: use logical properties (margin-inline, padding-inline, inset-inline-start, text-align:start). Mirror arrows and carousels in RTL; do not mirror logos, product images or clocks.
- Arabic typography: no letter-spacing, no uppercase transforms, slightly larger line-height (1.8).
- Load Arabic fonts only when `request.locale.iso_code == 'ar'`, with font-display: swap.
- Test: header, mega menu, cart drawer, filters drawer, product page, checkout language.

Sample Arabic UI strings (have a native speaker review)

Key	English	Arabic
lumenook.cta.add_to_bag	Add to bag	أضف إلى الحقيبة
lumenook.trust.cod	Cash on delivery	الدفع عند الاستلام
lumenook.trust.warranty	2-year warranty	ضمان لمدة سنتين
lumenook.delivery.free_over	Complimentary delivery over AED 300	توصيل مجاني للطلبات فوق 300 درهم
lumenook.specs.dimensions	Dimensions	الأبعاد

13 Performance, accessibility and SEO

Area	Requirement
Images	Always image_tag with widths + sizes; hero with fetchpriority=high and no lazy; others loading=lazy. Upload 2048x2560 max, under 400 KB
Video	Hero video under 4 MB, MP4 H.264 + poster; do not autoplay on save-data connections
JS	One small lumenook.js (defer), web components, no libraries. No layout shift from late-loading elements
Apps	Max 4-5 apps at launch; remove leftover app code
Targets	Lighthouse mobile: Performance >= 80, Accessibility >= 95, SEO >= 95. CLS < 0.1, LCP < 2.5s
Accessibility	Focus rings visible (2 px brass outline), skip link, alt text, aria labels on icon buttons, 44 px tap targets

Area	Requirement
SEO	Unique title/meta per page, one H1 per page, canonical tags, hreflang for en/ar (Shopify handles with markets), sitemap submitted to Google Search Console
Social	Open Graph image per collection and product; default share image 1200x630 with logo

14 Launch product catalogue

Suggested launch range with Lumenook naming and suggested AED retail. Source prices were in PKR on the reference collections (24 Sep 2026). AED figures are **suggestions only**: set final prices from your real landed cost (product + shipping + duties + VAT + payment fees) with a premium margin. Luxury price points: 49, 89, 149, 189, 249, 349, 449, 649.

Reference item	Lumenook name	Type / collection	Suggested AED	Launch?
Donut Lamp - touch	Halo Touch Lamp	Table Lamp / Ambient	249	Yes, hero product
Mushroom Lamp - dimmable	Cèpe Dimmable Lamp	Table Lamp	199	Yes
Tulip Lamp - wood base	Tulip Glow Lamp, Walnut	Table Lamp	189	Yes
Tulip Lamp - metal stand	Tulip Glow Lamp, Brass	Table Lamp	219	Yes (variant of above)
Bread Lamp - USB	Loaf Desk Light	Desk Lamp	219	Yes
Candle Warmer Lamp	Amber Candle Warmer	Ambient	299	Yes, gift hero
Aurora Box projector/speaker	Aurora Night Projector	Ambient	349	Yes
3D Moon Lamp	Lune Night Light	Little Luxuries	49	Optional
Vanity mirror lights	Vanity Light Strip	Little Luxuries	49	Optional
IKEA lamps (11 items)	Keep IKEA names	Table/Floor/Work	-	Not at launch (see note)
Anker Prime 250W charger	Anker Prime 250W GaN Station	Charging	649	If genuine stock
Wireless charging hub 3-in-1	Trio Wireless Charging Dock	Charging	349	Yes
Divoom TimeBox Evo	Divoom TimeBox Evo	Sound & Display	349	If genuine stock
Divoom MiniToo	Divoom MiniToo	Sound & Display	399	If genuine stock
UFO WiFi weather clock	Orbit Weather Clock	Smart Clocks	219	Yes
Smart weather station	Atlas Smart Desk Clock	Smart Clocks	149	Yes
Retro 1984 mini-computer clock	Retro Desktop Clock (no Apple/Macintosh naming)	Smart Clocks	219	Check design rights first
Cable clips (6)	Desk Cable Clips, set of 6	Little Luxuries	29	Optional
3D maze cube	Maze Cube Desk Puzzle	Little Luxuries	49	Optional
Hotel-branded hand fan	-	-	-	Exclude (third-party promo branding)

IKEA and big brands: IKEA operates its own stores in the UAE, so reselling its lamps weakens a luxury positioning and competes on price. Recommendation: launch with your own curated pieces and genuine premium brands; add others later only with legitimate supply.

Open decision: keep low-ticket items as a separate "Little Luxuries" gift/add-on collection (recommended, good for cart upsells) or drop them entirely.

Product setup standard (per product)

- Title: evocative name + key descriptor. Handle: lowercase-hyphenated.
- Vendor: Lumenook for own-label; real brand for branded items. Product type as in the table above. Tags: dept-lighting / dept-desk, room-*, giftable, new, home-office, ambient, little-luxuries.
- Images: 6-8, 4:5, consistent background, alt text "Halo Touch Lamp in warm white on a travertine side table".
- All lumenook.* metafields filled; pairs_with set to 2-4 products.
- SEO title max 60 chars; meta description 140-155 chars with "UAE" and a benefit.
- Inventory tracked; weight set (for shipping rates); SKU pattern LN-TL-001 (TL table lamp, FL floor lamp, DL desk lamp, AM ambient, CL clock, SP speaker, CH charger, LL little luxuries).
- Status: DRAFT until photos and copy are approved.

Description formula and example

1 sensory opening line, 1 short paragraph, 3 benefit bullets. 120-200 words. Specs live in metafields, not in the description.

Halo Touch Lamp
A soft circle of light for the end of the day.

Halo is a sculptural touch lamp that glows rather than glares. Tap once for a warm reading light, twice for a gentle ambient glow, three times for a whisper of light by the bed. Its rounded form sits as comfortably on a console in the majlis as it does on a bedside table.

• Three brightness levels with a single touch
• Warm 2700K light that flatters skin and interiors
• Rechargeable, so it goes wherever the evening does

Note: all features in real descriptions must match the actual product specs from your supplier.

15 UAE commerce settings (admin tasks)

Area	Setting	Owner
Markets	Primary market: UAE, AED, English + Arabic. GCC market later with its own shipping	You / Claude
Taxes	Prices include tax; UAE VAT 5%. Add TRN when registered. Confirm registration obligations with an accountant	You
Payments	Shopify Payments if eligible (cards, Apple Pay, Google Pay). Tabby and/or Tamara for instalments. Manual method: Cash on Delivery	You
Shipping zones	Zone A: Dubai, Sharjah, Ajman - next day. Zone B: Abu Dhabi, Al Ain, RAK, UAQ, Fujairah - 1-3 days. Free over AED 300, otherwise flat e.g. AED 20-25	You / Claude
Couriers	Aramex, Quiqup, J&T;, Shipa or similar via their Shopify apps; COD reconciliation supported	You
Checkout	Phone required; address with emirate + area; company name optional; order notes on	You
Notifications	Branded order emails (logo, ivory/espresso colours); WhatsApp order confirmation app for COD verification	You / Claude
Legal	UAE e-commerce trade licence; Terms, Privacy, Returns, Shipping pages in footer	You
Domain	Settings > Domains > Connect existing: A record @ -> 23.227.38.65 and CNAME www -> shops.myshopify.com at your registrar. Remove conflicting records. Set lumenook.com as primary; SSL issues automatically	You

Area	Setting	Owner
Email	hello@lumenook.com via your email host; add SPF/DKIM records Shopify shows for sender domain	You
Apps (suggested)	Search & Discovery (filters), Translate & Adapt, Judge.me or similar (reviews), a UAE courier app, Shopify Email or Klaviyo	You

16 Phased build plan with ready-to-paste prompts

Each phase ends with a preview review and a commit. Paste the prompt into Claude Code (Antigravity) or Claude Cowork as labelled.

Phase 0 - Setup (Day 1)

Run in: Claude Code

```
Read docs/LUMENOOK_BRIEF.pdf sections 1-4. Verify Shopify CLI is installed, pull the theme "Lumenook - Dev" from wgx84v-st.myshopify.com, init git, and commit the baseline. Then list the sections/ and blocks/ folders and write docs/THEME_MAP.md explaining which files render header, footer, product information, product media, collection grid, cart drawer and mega menu. Do not change any theme files yet.
```

Phase 1 - Store data (Days 1-3)

Run in: Claude Cowork (Shopify connector)

```
Using the Lumenook brief sections 6-7 and 14: create the lumenook metafield definitions and the lumenook_feature metaobject, create all collections with handles, smart rules, descriptions and SEO titles, create the pages (About, Shipping, Returns, Warranty, FAQ, Care Guide) with draft copy, and create the main-menu and footer menus. Create products as DRAFT from the supplier data I provide.
```

Phase 2 - Brand foundation (Days 3-4)

Run in: Claude Code

```
Implement section 5 of the brief: add assets/lumenook.css with the design tokens and include it once in layout/theme.liquid after the theme CSS; set the four colour schemes and typography in config/settings_data.json; set button radius 2px, spacing and letter-spacing; add locale keys under lumenook in en.default.json and ar.json. Verify in theme dev on desktop, mobile and Arabic. Run theme check and commit.
```

Phase 3 - Header, mega menu, footer, cart (Days 4-6)

Run in: Claude Code

```
Implement section 11: transparent-to-solid sticky header, mega menu with 3 link columns plus image card, predictive search styling, cart drawer with free-delivery progress bar (threshold as theme setting, default AED 300), gift note, Little Luxuries upsell, and Night footer with 4 columns. Keep changes in lumenook-* files where possible. Test keyboard navigation and RTL. Commit.
```

Phase 4 - Homepage (Days 6-8)

Run in: Claude Code

```
Build templates/index.json following section 8, using existing Dwell sections and blocks where possible and new lumenook-* sections only where needed. Use placeholder images until real photos arrive. Add .ln-fade reveal animation with IntersectionObserver and reduced-motion support. Commit.
```

Phase 5 - Collection template (Days 8-9)

Run in: Claude Code

```
Implement section 9: collection banner, sticky toolbar, filter drawer, 3/2 column grid with 4:5 images and hover image, card with subtitle metafield, editorial tile block after the 6th product, load-more pagination, collapsible SEO text. Commit.
```

Phase 6 - Product page (Days 9-12)

Run in: Claude Code

```
Implement section 10: product.json and product.lamp.json templates; blocks lumenook-spec-table,
lumenook-delivery-estimate, lumenook-lit-toggle, lumenook-trust-row; section lumenook-details;
snippet lumenook-sticky-atc; gift note line item properties; pairs-with with fallback to
recommendations; recently viewed; WhatsApp button. Confirm structured data. Test on a product with
all metafields and one with none. Commit.
```

Phase 7 - Content fill (Days 10-14)

Run in: Claude Cowork

```
Write final product descriptions using the formula in section 14, fill all lumenook metafields, set
SEO titles and meta descriptions, alt text, tags and pairs_with for every product. Write collection
SEO text blocks. Translate key content to Arabic for review.
```

Phase 8 - QA and launch (Days 14-18)

Run in: You + Claude Code

```
Run the QA checklist in section 17 on desktop, iPhone and Android, in English and Arabic. Fix
issues, run Lighthouse, place test orders (card, Apple Pay, COD, BNPL) and refund them. Then publish
Lumenook - Dev and connect lumenook.com as primary domain.
```

17 QA checklist and acceptance criteria

Brand

- ■ Palette, fonts and spacing match section 5 on every template
- ■ No default Dwell demo text or images remain
- ■ Logo sharp (SVG) on light and dark backgrounds; favicon set

Navigation

- ■ Mega menu works with mouse, keyboard and touch
- ■ All menu links resolve (no 404s)
- ■ Search returns products, collections and pages

Collections

- ■ Every collection has banner, intro, SEO text and at least 4 products
- ■ Filters work: price, type, dimmable, power, room
- ■ Load more works; empty state shows

Product page

- ■ 6+ images, lit/unlit toggle on lamps
- ■ Spec table renders and hides empty rows
- ■ Delivery estimate correct before and after cut-off
- ■ Sticky add-to-bag on mobile; variant stays in sync
- ■ Gift note saved on order

Cart & checkout

- ■ Free-delivery bar math correct at AED 0, 299, 300
- ■ Card, Apple Pay, COD, Tabby/Tamara test orders succeed
- ■ Shipping rates correct per emirate; VAT-inclusive totals

Arabic

- ■ Whole storefront mirrored correctly; no clipped text
- ■ Arabic fonts load only in Arabic
- ■ Checkout and emails in Arabic

Performance

- Lighthouse mobile Performance >= 80, Accessibility >= 95, SEO >= 95
- No console errors; theme check passes with zero errors

Launch

- Plan active; store name Lumenook
- lumenook.com primary with SSL; www redirects
- Policies linked; Search Console and Meta pixel connected
- Password page removed

18 Open decisions

Decision	Recommendation
Keep low-price items?	Keep as "Little Luxuries" add-on/gift collection; exclude from homepage hero areas
IKEA and branded items	Leave out at launch; add genuine premium brands only with legitimate supply
Returns window	14 days, unused, original packaging
Free delivery threshold	AED 300 (adjust once average order value is known)
Photography	Invest in one lifestyle shoot for the 6-8 hero products; supplier images for the rest, colour-matched
GCC expansion	After 2-3 months of stable UAE operations

Figures such as prices, delivery times and thresholds are suggestions to adapt to your costs and courier contracts. This brief is not legal or tax advice; confirm licensing and VAT obligations with a UAE professional.
